Skills

- **Data Structures / Algorithms:** in a school project, I had to re-implement the containers of the Standard Templating Library of **C++**
- **Unix/Linux:** my PC runs on Arch linux so I am used to solving linux problems. In a school project I had to make a Unix shell (command interpreter) in **C**
- **Team work:** I love using **Git** / **Github** organization tools to make team working a pleasure
- **Networking:** In a school project, I had to implement an **IRC server** in **C++**
- **Web Development:** In my free time, I love making websites, I write the HTTP server mainly in **node** (a **JavaScript** runtime environment)
- **Projects:** If you want to take a closer look at my projects, I created a website to highlight them <https://mle-moni.fr>

Education

2016 to 2019

Lycée Charles Renouvier, Prades – Baccalauréat STI2D option SIN

- The cursus was mainly about science, digital information systems, electronics and sustainable development
- Graduated in **July 2019**

2019 to now

[**42 School, Paris**](#)

Distinctions

- Diploma of baccalauréat with “mention très bien” (highest honours)
- 11th out of 500+ candidates at the admission test of the 42 school (1 month of coding challenges)

About me

- Born in the french countryside, close to the Spain/France border
- Created a website to promote artists of my highschool ([archived here](#))
- Interests in music, cooking, french poetry, mechanical keyboards...
- Arch linux / i3wm user
